**SPECIFICATION For MIG WELDING MACHINE WITH WIRE FEEDER & OTHER ACCESSORIES (SR18-059)**

- A. Welding current range - 20 - 400 Amp
- Duty Cycle - 60% at 300 Amp (minimum)
- Current control - Infinitely variable
- Input power - 400V, 3 phase, 50 Hz
- Welding application - MIG, TIG, Manual Metal Arc welding.
- Cooling - Forced Air cooled
- Display - Digital Amp meter and Volt meter to indicate welding current & voltage
- Protection - IP 22 minimum (Higher rated models/brands are preferred)
- Intended use - For welding of ASME radiographic quality carbon and low alloy piping and pressure vessels using Mig welding, Tig welding and Manual Metal Arc Welding in a Petroleum Refinery.
- B. Wire feeder - Two feed roll insulated hub.
- Drive wire - 0.8mm/1.2 mm steel and 1.2mm/1.6mm flux cord
- C. Torch - 3m Euro type heavy duty MIG torch with adaptor and 5m Interconnecting cable
- D. Other accessories - CO<sub>2</sub> heater regulator, and any other accessory recommended by the bidder.

1. The machine shall deliver a steady welding current to produce a good X-Ray quality weld in the current range specified.
2. The performance test of the offered machine model will be done in Sri Lanka at Suppliers / accredited agent's workshop witnessed by CPC. Supplier/ accredited agent shall provide an identical model of the machine offered for this purpose.

However final acceptance & payment of supplied machines will be made after testing and commissioning of the machines at Refinery premises (Commissioning to be done by bidder) payment will be made in Sri Lankan Rupees only.

**Other Conditions :**

1. Minimum one year warranty is required after commissioning date of the machine.
2. The welding plant shall be of a reputed Japanese, European, USA or Australian make only.
3. Spare parts for two years operation shall be quoted separately. This will not be directly considered for evaluations.
4. Printed published product literature/catalogues shall be sent along with the offer in English Language.
5. Complete spare parts list with pricing to be forwarded along with the offer. This will also not be considered directly for the evaluations.
6. Shall have an authorized accredited local agent in Sri Lanka & the local agent shall have an established, fully approved workshop to carry out the performance test & necessary maintenance work.
7. Supplier shall send a list of users of the offered welding plant model in Sri Lanka / Internationally.
8. Bidder should provide at least 1 kg of Drive wire in each wire type for commissioning the machine.
